EDUCATION

New York University — B.A. in Computer Science — Expected May 2030
New York, NY

The Harker School — High School Diploma — Jun 2026
San Jose, CA
AP Examinations: Computer Science A (Data Structures), Calculus BC, Statistics, Macroeconomics, Microeconomics, Environmental Science, European History, U.S. Government & Politics, U.S. History, Biology
Advanced Coursework: Honors Differential Equations, Honors Discrete Mathematics

HONORS & AWARDS

USA Computing Olympiad (USACO) — Silver Division

WORK EXPERIENCE

University of California, Los Angeles (UCLA) — Student Researcher — Jul 2025 – Jun 2026
Environmental Data Science · Remote

- Developed an algorithm to predict plant water stress from thermal satellite imagery, evaluated against ground-based field measurements, during a multi-month research collaboration with UCLA faculty and PhD students.
- Built interactive maps visualizing environmental disaster patterns from thermal remote-sensing datasets. **Python, QGIS, Excel.**

PROJECTS

Stock Backtesting Website – biswas.net/sid/stocktest — 2026 – Present

- Enabled users to test whether a trading strategy beats the market, as measured by backtested returns against a buy-and-hold baseline, by building a browser-based simulator over historical market data.
- Exposed strategies that only win on paper, as measured by post-cost returns, by modeling capital-gains taxes, trading commissions, and transaction costs directly in the simulation.
- Ran the entire simulation in the browser with zero server infrastructure by porting the Python backtesting engine to JavaScript, verified by a 300,508-value parity suite. **Python, JavaScript, React.js, Web Workers.**

Dou Shou Qi – biswas.net/sid/doushouqi — 2021 – Present

- Shipped a fully playable web version of the strategy game Dou Shou Qi, as measured by support for complete matches against computer opponents, by implementing the game's rules engine and AI bot players. **JavaScript, HTML5.**

TECHNICAL SKILLS & LANGUAGES

Programming & Tools: Python, JavaScript, React.js, Java, HTML5, QGIS, JMP, Microsoft Excel, Adobe Illustrator
Spoken Languages: English (native/bilingual), Bengali (full professional), Chinese (elementary)

VOLUNTEERING

San Jose Public Library — Volunteer — Dec 2022 – Present

Second Harvest of Silicon Valley — Volunteer — Jan 2025

LEADERSHIP & ACTIVITIES

President, Harker Table Tennis Club — Sep 2022 – Jun 2026
Member: AI Club, Game Development Club, Badminton Club
